

**LT Game,
participates in MGS Entertainment Show 2023,
showcasing unique and innovative slot games**

LT Game displays its products during the MGS

LT Game Limited launched a range of new gaming technology products to give visitors a first-hand revolutionary gaming experience, including the new “Street Steel” and “Hulunbair Grassland” slot games in the MGS Entertainment Show 2023 held at the Galaxy International Convention Center organized by Macau Gaming Equipment Manufacturers Association (MGEMA) on 14 and 15 November 2023. The Show is not only a major event in the Asian gaming industry, but also one of the largest gaming and entertainment exhibitions in the world. Returning the event after three years due to Pandemic, the Show has attracted participants from gaming professionals, investors, media and political and business representatives from around the world.

The Company is excited to introduce our new gaming technology products in our new product launch conference held at the Show and is particularly honored to have both the presence of Mr. Shaun Ruddy, an internationally renowned custom motorcycle builder who has won many international awards and 烏蘭托嘎大師 (Master Wulantoga) a first-rate composer in China, who composed the background music for the game “Hulunbair Grassland”, to share their interesting and remarkable insights on the new slot games.

Dr. Jay Chun, Co-chairman and Managing Director of Paradise Entertainment commented, "We are delighted to be able to showcase brand new products at the MGS venue again this year. Due to the pandemic, MGS was suspended in 2020, and it could only be held in the form of online activities in 2021 and 2022. Now all events will return in the form of new physical events. As a high-tech enterprise, Paradise Entertainment will continue to focus on high-tech investment and research and development and will continue to innovate and launch new high-tech products. I would like to thank our customers and media friends for their continuous attention and support, and I look forward to meeting and communicating with industry professionals, media representatives and potential customers at the Show to share our latest achievements”.

Mr. Eddie Au, Chief Operating Office, one of the panelist of the show also gave his insight about the topic titled ‘Future Opportunities, Challenges and Trends for Gaming Suppliers’ as he is also aware of the growing younger demographics in the Asian market. “This can help manufacturers push games out more easily, and we can also receive more feedback from players,” He also added.
