

## Supreme Series – the Refined & Enhanced Edition

LT Game Supreme Series

With new games keep coming out to the market and past hit games reenter the market with enhancements and updates, the gaming market remains the high level of competitiveness and gaming companies must continue spurring on elevating their creativities and productivities. As one of the major gaming and casino suppliers in Macau and worldwide, LT Game is not subtle to be limited in existing achievements but seeking to step outside the box and to adopt various elements for the creation of diverse gaming products. In effect, how to elevate the established foundation to a higher level is the constant pursuit of the LT team. This pursuit is also reflected on the product lines, and the previous released “Supreme Series” is a suitable demonstration.

The “Supreme Series” is a series of games in stand-alone version. This series currently includes four slot games: Golden Fortune Dragon Supreme, Golden Piggy’s Fortune Supreme, Door to Riches Supreme and Jin Yu Man Tang Supreme. These games were released before under “Bowl of Gold” and “Hong Yun Gao Zhao” Jackpot Series. Based on their past success and popularity, LT team put more efforts on refining and enhancing these games while adding some new ideas into these games to make the more advanced and appealing Supreme version. Previous version of Golden Fortune Dragon, Golden Piggy’s Fortune and Door to Riches were connected to “Bowl of Gold” Jackpot series. They share some common features, such as 243 ways of play lines, and multiple denomination selections. Due to the fact that these games were first set up as a series, the theme display, graphic designs and music composition share the same styling. That is to say the visual and auditory effects of these three games are relatively more uniformed. However, at the gaming side, various features highlight the uniqueness of each game:

Golden Fortune Dragon Supreme emphasizes on bringing more fun to the players by shaping the free games with the different combinations of free games and extra wild symbols. More free games will be collocated with fewer extra wild symbols and vice versa. Players can choose to accumulate smaller amount of rewards with more games or to win big but with fewer chances. Moreover, free game feature could be retrigged once and the number of rewarded free games will be corresponded with the free game option the player had chosen. Apart from the free game feature, players will have the option to “Gamble” and win more. When there is any win from any base game, players can choose to enter the gamble feature with their winnings. First, players can choose to bet all of the winning

Golden Fortune Dragon Supreme

amount or just half of it. Then, they can choose “black/red” or “any one of the four suits”, and twice or four times of the betting amount would be rewarded for the winner.

Golden Piggy's Fortune Supreme

Comparing with Golden Fortune Dragon Supreme, the Gamble feature remains but some adjustments on free game feature were made in Golden Piggy's Fortune Supreme. First of all, Wild symbol is now the substitution for all symbols including the Scatter symbol, which increases the probability of triggering the free game feature. Moreover, up to 38 free games would be randomly awarded when the feature is triggered. Last but not the least, re-trigger is available, and there is no limitation on retriggering. Originally coming from the same series, Golden Piggy's Fortune Supreme does share many similarities with Golden Fortune Dragon Supreme, but the different forms on free game features make them equally fun and money making.

Door to Riches Supreme absorbs some features from the previous two games, such as Gamble feature and Wild symbol substitution. However, modified free game feature and added Golden Symbols distinguish Door to Riches Supreme from the other two games. In the free game, players will choose the number of free games they want. Each option is matched with certain lower rewarded symbols which would be eliminated during free games. To add more fun, there is an option called “Mystery.” Once selected, the game will randomly assign free game numbers and the eliminated symbols, and the players would have the chance to get the most free games and to eliminate the most of the lower rewarded symbols at the same time. In addition, the chosen option will be rewarded again when free game is re-triggered. In addition to free game feature, a set of “Golden symbols are added into the game. With higher bets, more golden symbols would be activated, and more multiplied rewards would be given. In one hand, Gamble feature and Wild substitute Scatter set the tone in base games, while the added Golden Symbols feature increase the rewards up to 20 times. On the other hand, the free game feature inherits option selection and randomness from the previous two games but still has its own twist.

Door To Riches Supreme

Jin Yu Man Tang Supreme

Coming from the “Hong Yun Gao Zhao” Jackpot Series, Jin Yu Man Tong Supreme is somewhat different from the above three Supreme Series games, regardless of the graphic design style, auditory effects or gaming features. Off course, there are common characteristics among the four Supreme Series games, such as 243 pay lines and the Gamble feature, but Jin Yu Man Tong Supreme took a different way in structuring the free game feature.

Different from the above three games, the number of free games is determined by the number of Scatter symbols appeared on the screen. Re-trigger is also available during free games, but

the number of extra free games would also be determined by the original number of Scatter symbols. Another special feature during free games is the Golden Symbol accumulation and substitution. During free games, designated golden symbol would be collected. With enough accumulation, the lower rewarded golden symbols will be substitute with the next higher rewarded golden symbol. The accumulation will continue throughout the free game period until all the golden symbols are substitute with the highest rewarded golden symbols. The Golden symbols not only play an important role in free games but also in base games. When Golden symbols are activated, there is certain possibility that a special symbol will appear. When the special symbol shows up, all golden symbols would be changed to the highest bet golden symbols and result in higher money rewards.

The four games of Supreme Series share some common features but also have their own distinctive attractions. Given the past success of these four games with Jackpot Links, the concern of changing them into the stand-alone version is to lose some of the appealing points. However, to see it in another angle, although the Jackpot feature is removed from the Supreme Series games, the probability of trigger base game wins and free games would be relatively increased. More wins and rewards, this is definitely an attraction to players. Moreover, the games could be connected with casino management system for setting up Legacy Bonus or Mystery Jackpot, which would give the players unexpected surprise.

Through the unremitting efforts of LT team, the Supreme Series had been successfully released into the market. In effect, it is on schedule that the Supreme Series games would be put on the gaming floor in Casino Kam Pek Paradise in September. For people who are interested in the funs and excitements of these Supreme Series games, welcome to visit Casino Kam Pek Paradise in September to get the first-hand experience.

--The End--
