

A Visit from Students of Macau University of Science and Technology

LT Games was invited by Assistant Professor Dr. Liu Yingni, Christy and Lecturer Lei Pa Kei, Mike from the Faculty of Hotel and Tourism Management of Macau University of Science and Technology to hold an off-campus lecture for the senior year students. As a local enterprise that has been rooted in Macau for 14 years, LT Games has always participated actively in student activities, conveying the practical experience in the gaming industry to these students, sharing different learning experiences, cultivating students' interests, help them acquire interdisciplinary knowledge and the latest developments in the industry, and so as preparing them for future career planning.

In this event, Miss Betty Zhao, Chief Operating Office, and Mr. David So, the IT Director, of LT Game were invited to give a presentation on the establishment and organizational goals of LT Game and various gaming products and technologies.

LT Game, a subsidiary of Paradise Entertainment Limited, is one of the major gaming products and casino solutions providers in Macau and in the world. Some of its famous and representative gaming products including Live Multi Game System and the Paradise Jackpot System. Both products have been

patented in Macau, USA and PCT countries. Innovation, multiplicity, and services are the three objectives of LT Game.

Gaming is a fast-tracking and competitive industry. Based on innovative ideas and technical methods, LT Game had successfully developed various electronic table gaming, live multi-gaming, award-winning betting terminals, robot dealer ADV1 and revolutionary slot machines. LT Game not only will focus on improving the existing products but also put in numerous efforts to exploit futuristic possibilities. With the strong presence in Macau, the cutting-edge innovation and well-defined product differentiation, LT Game is positioned to become a world's unique and leading gaming equipment and system supplier.

In order to expand students' understanding on the development of gaming product, the operation of gaming system and the components of gaming machines, the specialist Mr. Ronald Tan, the Senior Manager Electronic Gaming & Special Project, was present to give the detailed lecture on various types of gaming products, including ETG games (Personal Sicbo, Multi-Roulette, Horse Racing and Power dragon), Live Multiple Gaming System, casino management system and other supporting equipment.

The best way of learning is to be immersed in the situation. LT Game opened the entire showroom for students to experience various game consoles on the spot, and arranges professionals stationed for responding all kinds of questions coming from the students. Most students have shown interests on how to operate the machines, while others have been fascinated by the math, RTP or RNG behind the games. The stationed professionals also did their best in explaining to the students about the gaming standards, gaming machine specifications, as well as the rules and operations for maintaining fairness, formulated by the Macau Gaming Inspection and Coordination Bureau (DICJ).

As a part of the gaming industry, LT Game has always supported, followed, and practiced responsible gaming, and has always supported student activities. It was an honor for be invited to hold the lecture for students from Gaming Sociology and Responsible Gaming course. With this event, we had the chance to pass on experience and knowledge to classmates, build a good communication platform for students, and hope that students can acquire more professional knowledge through participating in this event. During the session, students seized the rare opportunity to ask questions and discuss the theme of responsible gaming together. More importantly, students said that they have benefited a lot and look forward to participating in related activities next time, which would be a great compliment to our efforts.
